

# Birthday Party Themes

*\*All birthday party themes will include a hike around the property for hands-on exploration and a visit to our pond.*

**Wiggly Worms:** You and your friends will enjoy digging, wiggling, and giggling as we do hands-on exploration of worms and then search for them in their natural habitat. Great for spring-fall fun.

**All About Birds:** Feathers, beaks, and talons! You and your guests will learn about our amazing feathered friends and explore our sanctuary as we search for and identify resident birds. A year-round favorite.

**Insect Investigation:** Enter into the wonderful world of insects by learning about what distinguishes insects from other invertebrates before heading outside to search for insects and other creepy crawlies. Did you know we can find millipedes during the winter?

**Reptiles and Amphibians:** Scales, shells, and slime! You and your friends will learn about different types of animals that dwell between land and water before exploring our sanctuary, searching for the reptiles and amphibians that make their home here. Our most popular theme, with best sightings spring-fall.

**Animal Clues:** Tracks, scat and scrapes—oh my! You and your guests will become nature detectives, exploring our sanctuary for signs of the animals that live here. Great for year-round fun, with “clues” changing season to season.

**Ponding:** Get wet and muddy as we explore the pond, looking for a variety of critters that call the pond home sweet home. A warm-weather favorite.
