Maryland Ornithological Society Field Checklist of the Birds of Maryland

The list of species conforms to the *Official List of the Birds of Maryland*, version of 30 July 2021, compiled by the MD/DC Records Committee of the Maryland Ornithological Society (MOS). For further details on temporal and spatial distribution and abundance of species, refer to the MOS-sponsored publication *Birds of Maryland, Delaware, and the District of Columbia*, by B.M. Beehler; photos by M. Evans; R.F. Ringler, Technical Editor; Johns Hopkins University Press, Baltimore, 2019.

This list includes **452 species** observed in MD. **Not included** on this field card are species which are now **extinct** or **extirpated**, of **questionable** or **exotic** origin, or still under consideration by the MD/DC Records Committee. Species ordering and names conform to the American Ornithological Society Checklist of North and Middle American Birds, 7th Edition, 62nd Supplement, 2021 (<http://checklist.aou.org/taxa>).

Documentation is requested by the MD/DC Records Committee for observations of species marked with an **asterisk (*)** or for sightings of any species that do not occur on this list. For species marked with a **double asterisk (**)**, documentation is requested only when observed in defined ranges within the state—see the MD/DC Records Committee web pages for the latest Review List with the definitions of these ranges (<https://mdbirds.org/wp-content/uploads/md-review-list.pdf>). An online form for reporting rare or out-of-range birds is available at <https://mdbirds.org/records-committee/>.

The Maryland Ornithological Society is a nonprofit, state-wide organization founded in 1945 to promote the study, enjoyment, and conservation of birds in Maryland. For information about becoming a member, visit the MOS website at
